## Our Company

UWorld is a global leader in comprehensive academic and professional education. We have helped millions of high school students, undergraduates, graduates, and professionals successfully prepare for and pass high-stakes accounting, finance, graduate school, high school, legal, medical, nursing, and pharmacy exams. Our professionals are active accountants, visionary finance experts, in-classroom educators, experienced lawyers, accomplished doctors, practicing nurses, credentialed pharmacists, and skilled scientists who create and deliver the highest-quality digital and print test prep products and services so students and educators succeed.

UWorld started as a passion project in the dorm room of Chandra Pemmasani, a medical resident in Pennsylvania. He sought a better and more affordable way to prepare for the U.S. Medical Licensing Examination (USMLE®). In 2001, at age 24, Chandra began writing case-based learning questions that he tried to publish as a book. After posting them in online forums, he received an overwhelmingly positive demand for more. In 2003, Dr. Chandra founded USMLEWorld, which rebranded to UWorld in 2014. The company has a long-term vision and an unwavering commitment to innovation and to continually improving our resources and tools based on user feedback.

## Our Value Propositions

UWorld's high-quality resources focus on active learning, a research-based methodology that high schools, universities, and professional organizations across the U.S. implement to encourage active participation in the learning process. We engage students throughout the entire learning process, whether they are in class or studying independently. We do that with:

- **Exam-like questions:** Our in-house experts craft questions that are as hard or even more difficult than the ones students will encounter on their actual exam. This builds confidence and scores, because if practice feels like the exam, the exam will feel like practice.
- **Detailed answer explanations:** These thorough explanations explain the concept behind the problem and why each answer is correct or incorrect. This reinforces learning and prevents students from repeating the same mistake. We will always be obsessed with our premier answer explanations because they are a key differentiator for us.
- **Vivid illustrations, graphics, and images:** Our in-house experts create the tables, flowcharts, clinical lab images, and illustrations we seamlessly integrate into our challenging questions and detailed answer explanations. These tools simplify learning and help increase student retention and comprehension.
- **Precise videos:** Our high-yield videos introduce or reinforce key concepts to enhance learning. Many of our videos feature top instructors in their field to break down hard-to-understand topics for students.
- **Comprehensive study guides:** Our study guides, available in print and digital formats, are written by in-house experts and regularly updated. Self-guided text books clarify demanding topics and difficult concepts while providing example problems to assess student understanding and test readiness.
- **Active learning tools:** From flashcards with spaced repetition to My Notebook for digital notetaking, our exam prep products use the active learning method that helps students master high-yield concepts by encouraging learning by doing. Test-takers retain and recall information quickly as they prepare for their high-stakes exams.

## Our Verticals and Products

We design and distribute the highest-quality exam preparation products and tools with expertly written and regularly updated content, vivid visuals, precise videos, dynamic study planners, spaced-repetition flashcards, personalizable notebooks, real-time performance dashboards, and many more tools for the following exams:

- **Medical**

- American Board of Family Medicine (ABFM®)

## Our Core Values

- Student-focused
- Innovation
- Simplicity
- Collaboration
- Intellectual honesty
- Results-driven

## Our Culture and Community

We are driven by employees with diverse backgrounds and perspectives, and all are passionate about creating an inclusive environment where everyone feels valued. Our Diversity, Inclusion, and Awareness Committee is entirely grassroots, run by employees, for employees. The group champions inclusion, awareness, and diversity in our company and communities through education and philanthropy.

## Our Philanthropy

Education is what we do, and we are proud of it. We foster connection, collaboration, and professional development among all students. We are committed to building partnerships with professional organizations dedicated to positively impacting education and addressing skills gaps in the workforce. We invest our time, talent, and resources to support our causes through our philanthropic arm, UWorld Cares. Our nonprofit provides scholarships and product donations to students in underserved communities to help them build confidence and bolster the critical thinking skills they need to succeed.

## Our Statistics\*

- 5+ million users
- 0% venture capital/private equity investment (proud of our bootstrapped growth)
- \$26.8 million in product scholarships offered since 2020 to eager students across many of our product lines
- 99% of medical students choose UWorld as their exam prep product
- 90% pass rate on the CPA Exam when students meet SmartPath™ performance benchmarks in the UWorld CPA course
- 98% of NCLEX test-takers passed the exam after scoring an average QBank score of 75% on NCLEX-RN practice questions or 74% on NCLEX-PN practice questions.
- 85+ law schools trust Themis Bar Review for bar prep
